

Dishu
Masala

PURE SPICES. PURE HAPPINESS.

The 2026 Corporate & Festive Gifting Master Dossier

*Would I feed this to
my own daughter?*

The Dishu Standard began when founder Harish Sachdeva questioned the hidden preservatives, unpronounceable names, and synthetic colors in everyday kitchen ingredients. Dishu Masala was born as an honest initiative for everyday wellness—named after the little girl who inspired the standard.

100% Farm-Sourced:
Selected at peak
harvest to preserve
volatile essential oils.

Zero Artificial Additives:
Free from synthetic
dyes, lead chromate, or
filler starches.

Hygienic Automation:
Processed in FSSAI-
certified facilities,
untouched by hands.

The Corporate Gifting Paradigm Shift

	Traditional Sweets & Chocolates	Dishu Wellness Hampers
	High sugar, refined carbs, and preservatives	100% pure, functional botanical wellness
	Highly perishable, 3–7 day lifespan	Long-lasting value, 6–12 month stability
	Eaten once and quickly forgotten	Becomes part of a daily morning tea and evening culinary ritual
	A standard, generic gesture	A deeply authentic representation of Indian tradition and purity
